

17th March 2020

CORONAVIRUS INFORMATION FOR OUR PATIENTS:

PRECAUTIONARY MEASURES

In order for us to protect our staff and our patients, we request that anyone with a cough, fever, shortness of breath or a cold, do not attend our practice. Please phone and re book your appointment.

Please bear with us, our reception may be busier than normal.

Should you be experiencing any of these symptoms and have a dental emergency, please ring reception and we will do our best to help you.

In Practice

At College Dental Surgeries we have a very high level of infection control and will be stepping up these measures even further to ensure all high contact areas such as door handles, light switches and the card machine are regular disinfected using disinfectant wipes.

On arrival please use the hand gel provided.

Please do not arrive for your appointment early, this will help to reduce the number of patients waiting in our waiting room at any one time.

Please also do not bring with you anyone who is not attending for an appointment.

We are asking our patients to observe these measures so that we may remain open as usual to serve our local community. Thank you.

Stay healthy!

The team at College Dental Surgeries
